

Working Party on Chemistry for Cultural Heritage

Mission Statement

The Working Party is a network of representatives from EuCheMS member societies working in chemistry for cultural heritage.

The Working Party provides a forum for the field of Chemistry and Cultural Heritage.

The Working Party is based in Europe and aims to make links to related Institutions all over the world.

The Working Party aims to collaborate closely with the professional conservation community eg. IIC, ICOM-CC, ENCoRe etc.

The Working Party aims to motivate and assist the National Chemical Societies in promoting the interest and knowledge of the relation between Chemistry and Cultural Heritage in their countries.
