

EuCheMS-DAC Study Group / Task Force Annual Report for 2012-2013

Study Group / Task Force Name: Chemometrics
Study Group / Task Force Members and Affiliations: Romà Tauler, President of the Catalan Chemistry Society, IDAEA-CSIC, Spain Federico Marini, University of La Sapienza, Rome, Italy Beata Walczak, University of Silesia, Katowice, Poland Lutgarde Buydens, Radboud University of Nijmegen, Netherlands Jean Michel Roger, IRSTEA CEMAGREF, Montpellier, France Alexey Pomerantsev/Oxana Radionova, Institute of Chemical Physics RAS, Moscow, Russia, Jan H Christensen, University of Copenhagen, Denmark Johan Trygg, University of Umeä, Sweden Richard Brereton, University of Bristol, England
Objectives: 1) Promote Chemometrics in Europe 2) Organize Chemometrics sessions in EuCheMS related conferences 2) Organize an European Schools/Workshops on Chemometrics
Activities and Outputs in 2012-2013 (e.g. reports, publications, seminars, meetings): 1) Organization of the chemometrics session during the celebration of Euroanalysis in 2013 (Monday 26 th August, 2013), at Warsaw. Beata Walczak from the University of Silesia is taken care of this organization, supported by the Polish Chemistry Society (see additional document) 2) initial proposal of an European Workshop on Chemometrics
Activities planned for 2013-2014: 1) Organization of a chemometrics session during next EuCheMS general Congress (2014) in Istanbul (Turkey) 2) Celebration of the European workshop on Chemometrics
Report submitted by: Romà Tauler, President of the Catalan Chemistry Society
Date submitted: 12 July 2013
