Open letter to Prime Minister Netanyahu from Prof Ehud Keinan, President Israeli Chemical Society

<http://www.euchems.eu/wp-content/uploads/2016/07/Chemical-Weapons-open-letter-translation.pdf>

We request that the government of Israel would independently ratify the CWC.

Ehud Keinan

Joint Article in
The Conversation

We have no doubt that Egypt will quickly follow this move and join the CWC as well, because nobody would like to defy a global consensus and remain on the wrong side of the fence together with North Korea.

Not only the chemists, but also all Israeli citizens would rejoice at the ratification and applaud the Israeli government for keeping Israel in the sane part of the world.

Mr. Netanyahu
