

# Public consultation on the review of progress towards the 2020 energy efficiency objective and a 2030 energy efficiency policy framework

INFORMATION ABOUT THE RESPONDENTS	
Are you responding to this questionnaire on behalf of/as: -single choice reply-( <b>compulsory</b> )	Organisation
Please enter your name or the name of your company/organisation: -open reply-( <b>compulsory</b> )	EuCheMS
Please indicate your principal country or countries of residence or activity: -single choice reply-( <b>compulsory</b> )	Belgium
How would you prefer your contribution to be published on the Commission website, if at all? -single choice reply-( <b>compulsory</b> )	Under the name indicated (I consent to publication of all information in my contribution and I declare that none of it is under copyright restrictions that prevent publication)
A. Energy efficiency targets and measures	
1. Do you think the right approach in addressing the shortfall is:  -multiple choices reply-( <b>compulsory</b> )	a) To define energy efficiency target(s)
1.a.1. How should these target(s) be expressed? -single choice reply-( <b>compulsory</b> )	No opinion
1.a.2. At what level should they apply? -multiple choices reply-( <b>compulsory</b> )	EU
1.a.3. Should they be: -single choice reply-( <b>compulsory</b> )	Legally binding
Further comments on targets -open reply-( <b>optional</b> )	
B. Energy efficiency sectors	
2. Do you think that further policy measures are needed at EU level to foster energy efficiency in buildings?  -single choice reply-( <b>compulsory</b> )	No opinion
3. Do you think that further policy measures are needed at EU level to foster energy efficiency in industry?  -single choice reply-( <b>optional</b> )	
4. Do you think that further policy measures are needed at EU level to foster energy efficiency in	

<p>transport? -single choice reply-(optional)</p>	
<p>5. Do you think that further policy measures are needed at EU level to foster energy efficiency in electrical equipment? -single choice reply-(optional)</p>	
<p>6. Do you think that further policy measures are needed at EU level to foster energy efficiency in generation and distribution? -single choice reply-(optional)</p>	
<p>7. Do you think that further financial mechanisms and instruments are needed at EU level to mobilise energy efficiency investments? -single choice reply-(optional)</p>	
<p>8. Do you think that further measures are needed to build the capacity of actors in the energy efficiency sector? -single choice reply-(optional)</p>	
<p>9. What are the most promising technology solutions that can help deliver energy savings in the 2020 and 2030 time horizon? How can their development and uptake be supported at EU level? -open reply-(optional)</p>	
<p>- Cheaper and better insulating materials - Improved fuel economy: high performance catalysis and next generation fuels - Improved recycling technologies - Use of nanotechnology to increase the strenght to weight ratio of structural materials - More efficient lighting, e.g. Organic Light Emitting Diodes (OLED) and Light Emiting Electrochemical Cells (LEC) - Superconducting materials which operate at higher temperatures - Novel efficient coatings, lubricants and composites - Improvement of energy intensive processes through process optimisation - New process routes, new catalysis, improved separation techniques</p>	
<p>10. Further comments -open reply-(optional)</p>
