Swiss Chemical Society Annual Report to the EuChEdMS Division of Chemical Education for 2021-2021

1. Abstract

Delocalized-service training activities for chemistry teachers were organised.

Two publications are issued, the journal "Chimia" for all chemists from the Swiss Chemical Society SCS and a bulletin "c+b" (Chemistry and Biology) for teachers from the Association of Swiss Science Teachers.

2. National educational policy

New structures and a new curriculum for high schools (Gymnasium) are to be planned and later introduced.

3. Events in chemical education

Smaller but more further training courses were offered.

4. Activities of the National Chemical Society

Active with a Division of Chemical Education.

5. Publications: Bulletin c+b (chemistry and biology) in French, German (and sometimes Italian). Column "Education" in "Chimia".

6. Liaison with the chemical industry: Occasional casual contact.

7. International and European initiatives

Collaboration with other European Science Teacher Associations in Belgium, France, Germany and Austria.

8. Name of delegate and deputy: Klemens Koch, Markus Müller

9. Contact details of delegate: Klemens Koch, Pädagogische Hochschule Bern, Fabrikstrasse 8, 3012 Bern, Switzerland, klemens.koch@phbern.ch Markus Müller, Kantonsschule Frauenfeld, Speicherstrasse 10, 8500 Frauenfeld, Switzerland, markus.mueller@kftg.ch
