Social Media Growth?!

- Twitter is by far the largest platform
- Stagnation since Musk takeover in November 2022

- Facebook hasn't shown any substantial growth
- Small increase around the ECC8 congress in Lisbon

- LinkedIn shows the fastest growth, which might be due to the complicated situations of the competitors

- Instagram has also been limited in (absolute) growth
- Unclear whether this is due to focus or the company

- YouTube channel still relatively new
- Video views better than subscribers
