

Subject: Nominations - 4th Young Investigator Workshop, July 12-13 Galway, Ireland

Dear colleagues,

After the success of the previous editions, we are pleased to announce the 4th Young Investigator Workshop of the EuChemS Chemistry for LS Division in Galway, Ireland on **12 July 2024**

The YIW is an officially recognized satellite event of ECC (Dublin, 7-11 July) and will be composed by young investigators chosen from researchers nominated by the EuChemS member National Chemical Societies.

Please, contact your society (possibly the Chemical Biology division) and send up two nominated YIs (ranked) to: Prof. Peter Crowley (local organizer) peter.crowley@nuigalway and in copy to Francesco Peri: francesco.peri@unimib.it.

Profile. Candidates may be researchers of any nationality who develop their activity in the field of the Chemical Biology. They must have already shown the potential for research independence and evidence of maturity, for example by having produced at least one important publication as main author or without the participation of their PhD supervisor.

Candidates should also be able to demonstrate a promising track record of early achievements appropriate to their research field and career stage, including, e.g. significant publications (as main author) in major international peer-reviewed multidisciplinary scientific journals, or significant publications in the leading international peer-reviewed journals of their respective field, or research monographs. They may also demonstrate a record of invited presentations in well-established international conferences, granted patents, awards, prizes, or any other scientific achievements they deem relevant in relation to their research field and project.

Admissibility and eligibility criteria. Candidates who have successfully defended their first PhD > 2 and ≤ 7 years.

Important: National Societies should cover travel and accommodation fees of candidates. One or two candidates can be selected by every National Society, also depending from the budget of the society.

It is therefore not possible for a National Society to nominate a candidate in the absence of the budget required to cover the candidate's participation costs.

Deadline for nominations: 15th January 2024

Thank you for your collaboration in organizing YIW 2024

Best wishes,

Francesco Peri
Chair of the EuChemS Division of
Chemistry in Life Sciences

Peter Crowley
Local Organizer
