EuChemS Outreach
Chaired by Floris Rutjes

EuChemS and Industry
Chaired by Hans-Peter Lüthi

Financial matters
Chaired by Hans-Peter Lüthi

Circular Economy
Chaired by Nicola Armaroli

Several meetings throughout 2025

EuChemS GWB 2025

On 11 February 2025, EuChemS organised its **Global Women's Breakfast (GWB)** webinar, part of the [#GWB](#) initiative launched by The International Union of Pure and Applied Chemistry (IUPAC). The event, titled “**Reaching for the Quarks, Fair and Equal Chances in Cutting-Edge Science and Technology**” focused on promoting equal opportunities for women in science and innovation.

Webinar chaired by Angela Agostiano

EuChemS – EP science-policy event

Scientific Chair: Peter Roesky
Task Group Chair: Nicola Armaroli

14 May
Rare Earth Elements –
These high-tech
enablers

Morning session
hosted by **MEP**
Annalisa Corrado,
and co-chaired by
Angela Agostiano.

EuChemS Awards

Blue colour works, Modum, Norway

21 June, 2025

Grotthuss Laboratory, Lithuania

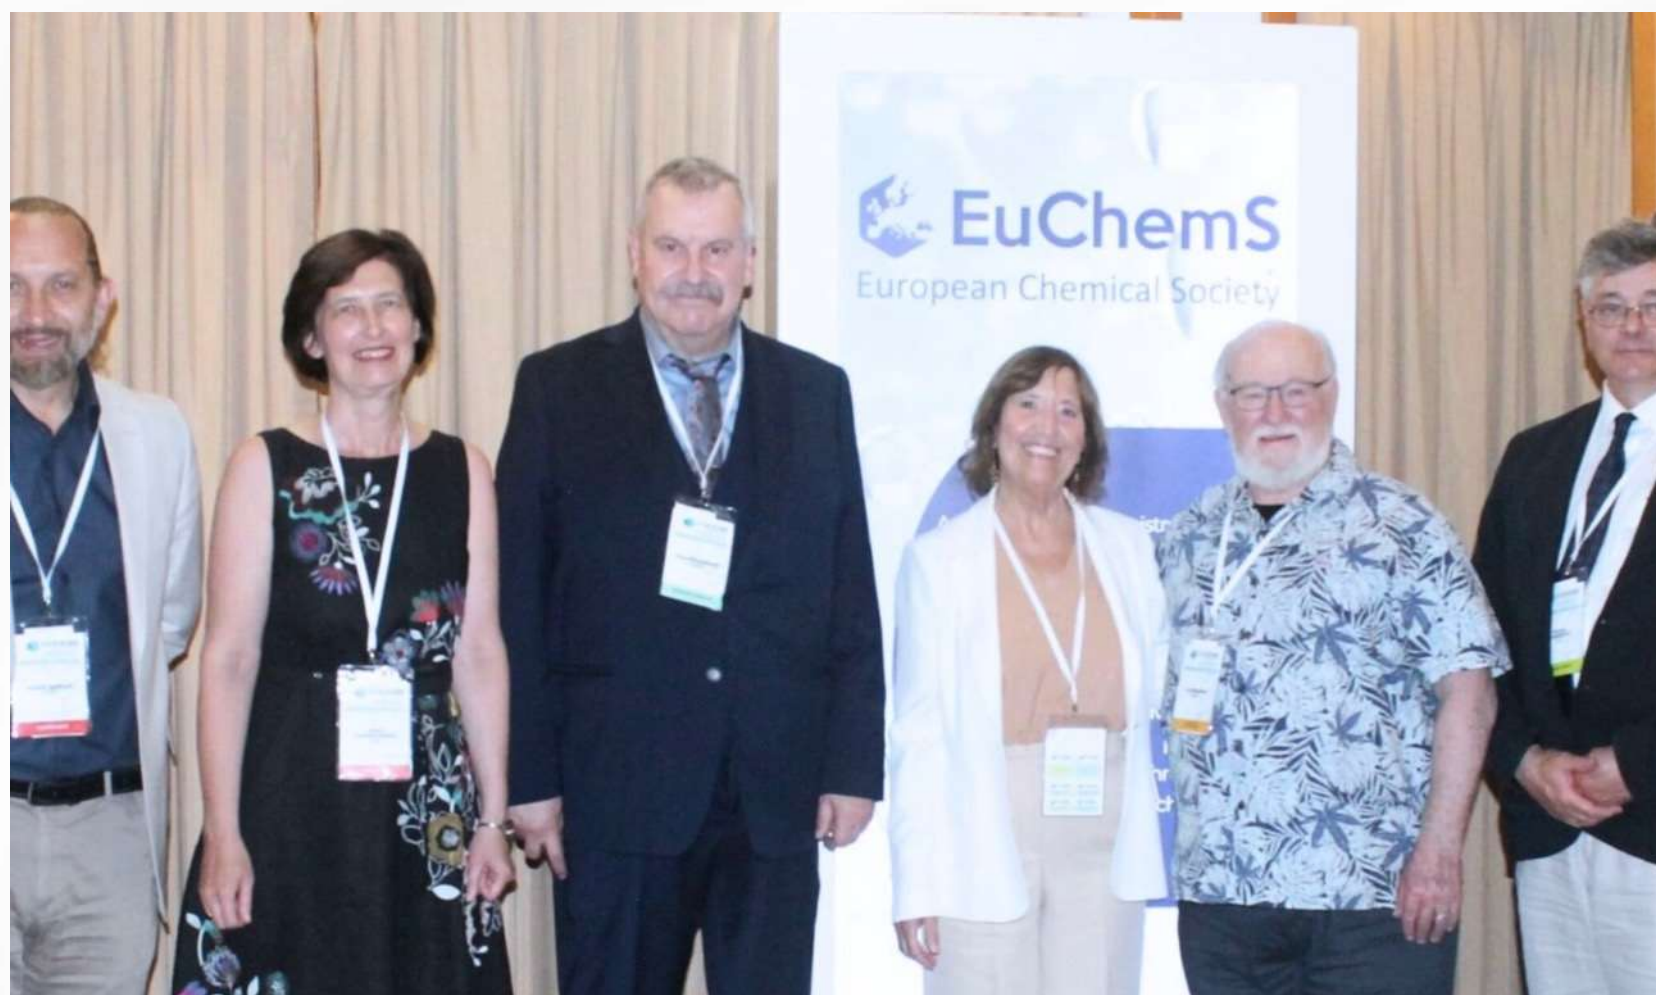

7 June, 2025

EuChemS President @PNs conferences

19th International Conference on Chemistry and the Environment, Belgrade, Serbia

9-12 June 2025

Joint 50th Congress of the Physical Chemistry Division of the Italian Chemical Society and 5th European Conference on Physical Chemistry

29 June – 03 July 2025

EuChemS @ECTN meeting

**European Chemistry Thematic
Network Association (ECTN) General
Assembly and Annual Meeting**

29-31 May 2025, Bologna, Italy

EuChemS Magazine Plus

PRESIDENT'S COLUMN

'Science knows no borders'

14 March 2025

'The path forward: embracing unity in diversity'

10 July 2025

Catia Bastioli, presidente e CEO di *Novamont*.

in 1895, graduated in chemistry from the University of Naples Federico II and, became the first woman in Italy to hold a university chair in this discipline..

Known as "The Lady of Naples," Maria Bakunin not only made fundamental contributions to the advancement of chemistry, but paved the way for many other women in academia and research, demonstrating that scientific excellence is genderless

From Palestinian refugee to Nobel glory: Omar Yaghi's incredible journey

Born in Amman to refugee parents, Yaghi rose from humble roots to reshape modern chemistry

Nobel Prize in Chemistry 2025

Omar M. Yaghi

“for the development of metal-organic frameworks”

Ill. Niklas Elmehed © Nobel Prize Outreach

I grew up in a very humble home and we were a dozen of us in one small room, sharing it with the cattle that we used to raise. So yes. And I was born in a family of refugees and my parents barely could read or write. I think my father finished sixth grade and my mother couldn't read and write. So it's quite a journey, and science allows you to do it. I mean, science is the greatest equalizing force in the world.

Yaghi's Journey shows how vision and resilience can transcend boundaries. For EuChemS this is a call to stress the value of freedom, diversity, mobility and inclusive scientific leadership in science.
