PROGRAMME (CET starting time is 10.00 am)

10.00 am	Opening Remarks – Prof. Adri Minnaard , President of the Division of Organic Chemistry, EuChemS
10.00 am – 10.10 am	Arnaud Voituriez , President of the French Organic Division of Chemistry of the French Chemical Society Virginie Vidal , Representative of the French Chemical Society in the Division of Organic Chemistry, EuChemS
10.10 am – 10.35 am	Laurence Miesch (Institut de Chimie de Strasbourg) “Light, Strain and Radicals: New Strategies for Regioselective Phosphorylation”
10.35 am – 11.00 am	Xavier Guinchard (Institut de Chimie des Substances Naturelles) “The Tethered Counterion-Directed Catalysis (TCDC) approach in enantioselective catalysis using the bifunctional CPAPhAuCl chiral complexes”
11.00 am – 11.25 am	Gaëlle Chouraqui (Aix-Marseille Université) “Towards the Activation of Small Molecules Using Non-Metallic Radical Complexes”
11.25 am – 11.50 am	Guillaume Lefèvre (Chimie ParisTech) “Combining Redox-active Ligands and Lewis acids: a Good Match to Control the Fate of Reactive Iron Catalysts”
11.50 am – 12.15 pm	Marie-Eve Perrin (Université Lyon 1, CPE Lyon) “Unraveling the Role of Polymetallic Assemblies in Organic Synthesis: From Structure to Mechanism”
12.15 pm – 12.40 pm	Sébastien Thibaudeau (Université de Poitiers) “Unlocking Alternative Synthetic Routes Through Superacid-Promoted Reactions”
12.40 pm – 13.05 pm	Lucile Anthore Dalion (CEA) “Umpolung at Nitrogen: synthetic applications and mechanistic investigations”
13.05 pm-13.30 pm	Sébastien Gouin (Université de Nantes) “Sugars Under Voltage: Electrochemical Bioconjugation of Carbohydrates on Protein and Cell Surfaces”
13.30 pm	Closing Remarks – Prof. Adri Minnaard , President of the Division of Organic Chemistry, EuChemS
